

PROTOCOL OF EXPERTISE

Basic Educational Program of Higher Professional Education

Program Title: *General Medicine*

Program Code: 560001

Degree Awarded: Specialist (Physician)

Institution: Osh International Medical University, Kyrgyz Republic

Form of Study: Full-time

Program Duration: 5 years

Language of Instruction: English

Object of Expertise:

Basic Educational Program (BEP) in the field of **General Medicine**, developed by the Osh International Medical University in accordance with the **State Educational Standard (SES 2021)** of the Kyrgyz Republic.

Purpose of the Expertise:

To evaluate the compliance of the BEP with:

- National and international educational standards
- Modern scientific and professional requirements
- Labor market needs and healthcare system expectations
- Competency-based learning outcomes and curriculum structure

Evaluation Criteria:

Criteria	Expert Assessment	Comments
Program Structure and Duration	Meets standards	Duration and credit load are appropriate (320 credits, 5 years)
Mission and Goals	Clearly stated and aligned	Reflects international standards and healthcare needs
Learning Outcomes	Fully defined	Competency-based and detailed
Curriculum Design	Aligned with goals and outcomes	Balanced between theoretical and practical components
Teaching Methods	Innovative and student-centered	Integration of ICT and clinical simulation is noted
Assessment System	Transparent and multi-level	Includes formative and summative assessments
Faculty Qualifications	Qualified and experienced	High proportion of PhD-holding staff

Criteria	Expert Assessment	Comments
Resource Provision	Sufficient	Well-equipped laboratories, access to databases
Clinical Practice and Rotations	Structured and effective	Wide network of affiliated hospitals
Internationalization	Well-integrated	Courses in English, partnerships with foreign universities

Strengths Identified:

- Strong alignment with international medical education standards (e.g., WFME)
- Comprehensive list of learning outcomes with clear indicators
- Emphasis on clinical training, research, and professional ethics
- Use of modern educational technologies and e-learning platforms
- Multicultural and inclusive academic environment

Recommendations for Improvement:

- Introduce more elective courses reflecting global medical trends (e.g., telemedicine, global health)
- Expand opportunities for student and faculty mobility programs
- Enhance the system of continuous feedback from stakeholders (students, graduates, employers)

Conclusion and Final Evaluation:

The Basic Educational Program in **General Medicine** (560001) offered by the Osh International Medical University meets the requirements of the **State Educational Standards** of the Kyrgyz Republic and corresponds to the international standards of medical education.

The program is recommended for approval and implementation without reservation / with minor revisions.
