What motivates you most in the learning process?

 Копировать диаграмму

35 ответов

- Knowledge, encouragement in the form of the good grades
- Credit education system
- No motivation

What suggestions would you recommend to improve the work process?

35 ответов

Need improvement

If the exam held at time means ,they are telling to wait , for hours and after then they are starting

Sometimes the college does not listen and understand the problem of students.

I want the teachers to change their methods of teaching.some teachers don't even understand topic themselves.And about the attendance i want the attendance to be 70% because sometimes students may get sick semester is 5 months in 5 months a student can definitely get sick ,so there should be releif of 5 days.

Improve everything

i want to do practice in india not here because there we have language problems and all

Medical practice i don't want in kyrgyzstan i want to don in my home country because it is easy accessible and their wil be not a barrier of language

What suggestions would you recommend to improve the work process?

35 ответов

There should be a proper timetable of exams

Should be installed ATM , Terminal for credit money also should be temple for worship

Good

Keep clinical practice with university classes simultaneously its of no use to go home for just 40 days

The student reward system is a total mess ! It is the absolute worst ! Students who have been representing university are usually dismissed by the dean, and the rewards are unsatisfactory as well. Example : i got 1st degree diploma at 1 conference and multiple certificates from different conferences but neither did i get any reward or token of appreciation from the university! And when the university was presenting certificates for students i was clearly ignored and replaced by people who never really work or do anything, most annoying part of this was when i approached the dean with this complaint i was told that the teachers didn't inform her. Whereas almost the entire student body and teachers know which students help both students and the teachers during conferences. And the toilets in the university are very bad

Nothing

What suggestions would you recommend to improve the work process?

35 ответов

I am transfer student so we don't have to do medical practice in osh I am having 5 year course and here language issues is also their so I am going to do medical practice in INDIA // and insurance is also not useful

Teaching method

nthingg

Students must get clinical practice along with classes each week it will be better and smart work a student can complete clinical practice also and class also at a time it will be time conservation method and also it will be better for us to do clinical practice along with studies it will be easier to get knowledge, and also many of the subjects classes are holding outside which is difficult for us to attend all the classes from one location to another location it should be changed and classes should be in university

N

Well everything is good, but if anything need change you already are aware of the things which need to change.

What suggestions would you recommend to improve the work process?

Well everything is good, but if anything need change you already are aware of the things which need to change.

Give us time to study at home we don't need more classes at university

Please give us exam questionsanswers.

Teachers give exam answers

Please give us exam question answers

None

Arrangement for fmge classs

Make the classes only in the university not outside, we don't have time to go outside and then come back to university for classes.

What suggestions would you recommend to improve the work process?

Build a Gym in our university for physical health training also.

To be more cooperative with students that's it . Or give answers during exam time .some teachers give more mcqs but not look like mcqs that all are cases so its very difficult for us to learn these mcqs in one night there will be no gap in these difficult exams

Dont be partial to some students some teachers only select for article and olympiad to some students only give everyone fair chance sometimes we didnt even herd about any article hapenning happening

To be more cooperative with the students in related to their academic needs and give answers during exam time kindly, i had submitted my tuition fee in December they didn't update i didnt have first exam of faculty therapy this is not my mistakee kindly plz cooperate with the students

Improve the practical class and lecture class some teacher just make is sit let us go and wasting the time. And increase the time gap between the every class. And arrange the blood test centre in the university clinic and provide every student proper student ID card

Fmge class
